Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claim 47 has been found to be allowable over the prior art because the prior art fails to teach or suggest a time measurement device comprising a mechanical return-to-reset mechanism for resetting the function and coinciding with a reset impossible state of the electrical function and also prevents resetting during measurement of elapsed time, and the control sequence that occurs if the power supply voltage falls below a minimum voltage level required for performing the time measurement function, in combination with the remaining limitations of said claim.

Claim 55 have been found to be allowable over the prior art because the prior art fails to teach or suggest a time measuring device comprising a control section for continuously maintaining a driving signal for driving a hand from the time the hand is driven by a first actuating section until the hand is normally stopped, wherein the control sections includes a pull-up resistor or a pull-down resistor for determining a signal output to a pattern on a circuit board, a sample circuit for intermittently operating the pull-up resistor of the pull-down resistor, and a holding circuit for recognizing the signal output to the pattern during a sampling period in which the pull down resistor or pull-up resistor is intermittently operated by the sampling circuit and for holding and outputting the recognized signal except when the signal is recognized, in combination with the remaining limitations of said claims.

Claims 48-54 have been found to be allowable as being dependent upon the allowable claim 47, respectively.

Art Unit: 2841

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeanne-Marguerite Goodwin whose telephone number is (703) 305-0264.
